Description:

Stay Ceken offer you a living culture, far beyond a living space.

We set out with the dream to sustain traditional district culture amidst the megacity of Istanbul. While shaping our project with the desire to revive social life, we clung to the idea of horizontal architecture, so that our story would not stray away from sincerity. And we did not forget about comfort, either. So, we added high ceilings and large terraces to flat plans. We dreamed of restaurants and cafés within reach of an elevator travel and bedecked the streets with spacious shops.

We wanted to create a living style far beyond a mass housing project... And that's how Stay Ceken came to life.

As put so beautifully by Napoleon Bonaparte: "If the world were a single state, Istanbul would be its capital", signifying the magnitude of beautiful Istanbul, it has been our greatest ambition to revive the city's district culture that is on the verge of disappearing as the city continues to grow, and to rekindle the sincerity, companionship and neighborliness embedded in our genes.

Stay Ceken project is waiting for its new residents with its 121 flats and high street shops for you to experience the district culture with your loved ones in the heart of Istanbul.

Stay Ceken is a project by Ceken Yapı İnşaat A.Ş that consists of 2 blocks built on 4,200 square meters. The blocks comprising 5 stories and 11 stories, respectively, house a total of 121 flats of different types and sizes (1+1 and 2+1). Equipped with every detail for your comfort, the flats in Stay Çeken are provided with high ceiling to boost up your life quality.

Reincorporating the so beloved terrace culture back into our lives, Stay Ceken offers a range of terrace alternatives from 20 to 75 square meters, along with a balcony in each flat.

Our carpark with 1 parking lot per flat plus charging stations for electric cars resolves all parking problems thanks to 165-cars' total parking capacity.
